Information about pricing

Minimum charge

Minimum charge is the plan's price. A one-off charge of \$2 may be payable for the Lebara SIM Card (unless included in a starter pack), in which case the total charge is the plan's price + \$2 (the SIM charge is not applicable if you already own the Lebara SIM card you plan to use, or you purchased a pre-loaded card). All fees must be paid up front at the time of recharge or activation of the service, except for the SIM card fees which are payable at the time of ordering the SIM card.

Data usage

Data is counted in kilobytes and includes uploads and downloads. If all current included, bonus and Data Bank data is used before expiry of the current plan, access to data will cease unless you have a main balance, or you recharge, or purchase a data add-on, or a new plan that includes data. Excess data is charged at \$0.02/MB in KB increments. You may purchase additional data add-on if required. Any additional data add-on will be for the cost, amount of data, and data validity period as notified to you at the point of purchase.
